

DRIFIRE® DH AIR™ FR WORK SHIRTS

DRIFIRE®

Available in Two Options

DRIFIRE® DH AIR™ FR WORK SHIRT

SHR-DHG (Grey) | SHR-DHK (Khaki)
SHR-DHN (Navy)

DRIFIRE® DH AIR™ FR VENTED WORK SHIRT

SHRA2TGV (Md. Blue) | SHRA3TGV (Khaki)
SHRU4TGV (Navy) | SHRU5TGV (Grey)

The DRIFIRE® DH Air™ FR Work Shirt line delivers breathable, moisture-wicking CAT 2 protection with durable dual-hazard protection for arc flash and flash fire hazards. The difference is simple: the vented work shirt adds an engineered back vent design and covered FR mesh panel to help hot air escape, draw cooler air in, and improve mobility in demanding conditions.

- **CLASSIC STYLE**

Breathable FR protection with moisture-wicking comfort and durable everyday performance

- **VENTED BACK DESIGN**

Engineered to help release hot air and improve airflow while you work

- **MOISTURE-WICKING COMFORT**

Westex® DH Air™ fabric helps manage moisture and keep wearers comfortable through long hours on the job

- **MOBILITY**

Classic fit supports everyday movement, while the vented option adds stretch through the covered FR mesh panel

- **DUAL-HAZARD PROTECTION**

Inherent FR protection for arc flash and flash fire hazards that won't wash or wear out

ARC RATING: 9.1 cal/cm² | CAT 2

COMPLIANT WITH: ASTM F1506, CSA Z462, NFPA® 70E, NFPA® 2112, OSHA 1910.269
