SHORT	29
REGULAR	32
LONG	34

NOTE: Measurements are body measurements to help determine what size garment a person should order. For best results, measure over fitted undergarments. If your measurement falls between sizes, it is recommended that the larger size be purchased.

1 WAIST

Measure around your natural waist, where your waist bends side to side.
NOTE: This may not be the smallest point.

2 SEAT

Stand with your legs straight and measure around the fullest point of your hips, keeping the tape parallel to the floor.

3 INSEAM

Measure vertically, from the top of your inner thigh to the floor, without wearing shoes.
