NOTE: Measurements are body measurements to help determine what size garment a person should order. For best results, measure over fitted undergarments. If your measurement falls between sizes, it is recommended that the larger size be purchased.

- 1 WAIST**
Measure around your natural waist, where your waist bends side to side. **NOTE:** This may not be the smallest point.
- 2 SEAT**
Stand with your legs straight and measure around the fullest point of your hips, keeping the tape parallel to the floor.
- 3 INSEAM**
Measure vertically, from the top of your inner thigh to the floor, without wearing shoes.
