

NSA ELDORADO ULTRA WELDING SHIELD

NSA ELDORADO ULTRA WELDING SHIELD

WLD-PAD (Dark Green)

- **THERMAL RESILIENCY** – Outer layers consisting of fabrics with OPF fibers as well as a wool liner in the middle help to reduce thermal transfer
- **SECURE COVERAGE** – Dual strap & snap adjustments keep the shield in place while working
- **MODULAR PROTECTION** – Can be layered over other PPE for additional protection as needed
- **ECONOMICAL SOLUTION** – Welding pad takes the brunt of sparks and spatter, protecting underlying PPE and offering a lower replacement cost for a more economical welding solution

MATERIAL: FR Rayon & Para-Aramid/Wool Liner/OPF Ripstop

ECONOMICAL SOLUTION

Protects underlying PPE

MODULAR PROTECTION

Can be layered over other PPE for additional protection

SECURE COVERAGE

Dual strap & snap adjustments keep the shield in place
